

WORLD-WIDE LAWS FOR LABOR PROPOSED TO LEAGUE OF NATIONS

BOLSHEVISM HERE
WELL ORGANIZED,
SENATORS TOLD

Prof. Dennis Calls Former Residents in U. S. Most Radical Reds in Russia.

WASHINGTON, Feb. 12.—Dennis, who has a chance of gaining a foothold in America, depends largely on industrial conditions the next month. Dennis, who returned from Russia last September, told the investigating committee of the Senate today.

"The movement extends from New York to San Francisco," he explained. "It is fairly well organized, with the nation divided into districts under local leaders. Whether or not it shall amount to anything rests in large part on what our industrial conditions are during the coming month."

Dennis, a professor at Northwestern University, Illinois, spent a year in Russia. His story of the reign of terror that exists in Russia since the Reds gained the ascendancy agreed in substance with testimony given by other witnesses. He also agreed that men who have lived in America hold prominent places in the Bolshevik government.

"A number of the Bolshevik commissaries came from America," he said. "They had lived here from three to thirteen years. While here they lived in the industrial centers. They are among the most bitter and indomitable men in Russia. They control much of the Soviet."

Joseph Shapkin, a newspaper man formerly in Russia, today protested the linking of Jews with the Bolshevik movement. In a telegram to Chairman Overman, Shapkin declared, "It is unjust to indict a whole people by insidious suggestion. By doing so the testimony submitted before your committee is playing into the hands of the black hundreds who are only waiting for the downfall of Bolshevism to massacre Jews in Russia."

INDOLENT GERMAN
BLINDLY INSOLENT

American Observer Declares Food Alone Will Not Solve the Grave Problem.

PARIS, Feb. 12.—The rehabilitation of Germany cannot be effected alone by furnishing her with an adequate amount of food, in the opinion of a trained American observer who has just completed a tour of Prussia for the Supreme Council of Food and Relief of the Peace Conference. A letter from him received by the council today says:

"It may be that a food supply is the first and indispensable need, but I am not sure of that. The disorganization and lack of control is so extreme that I can without difficulty see food importations leading directly to new disturbances."

"The people will not work. They are paid too high a pension for idleness. They have no real leaders to organize and carry them. They are going down further and further with all aid, with few exceptions, they do not blame themselves. They reproach the entente. They are blindly indolent."

CHARGES THAT \$800,000
OF ESTATE IS MISSING

Plainfield Woman Says Lawyers Influenced Grandmother to Make Them Her Heirs.

Mrs. Sylvia Curtis White of Plainfield, N. J., obtained from Surrogate Fowler today the appointment of Harold E. Lippincott as temporary administrator of the estate of the late Mrs. Harriet A. Curtis, her grandmother, when she charged that securities amounting to about \$800,000 have disappeared.

Mrs. White also charged that her grandmother had been unduly influenced by her estate to two lawyers rather than let it descend to relatives. Mrs. Curtis died Jan. 25 and the will has not yet been filed for probate.

Mrs. Curtis's estate is valued at \$2,000,000, including works of art worth \$150,000.

RIGHTS OF LABOR
IN WORLD LEAGUE
AS NOW DRAWN UP

Unions and Peaceful Picketing Recognized—International Standard of Hours.

PARIS, Feb. 12.—The agreement by the Commission on International Labor Legislation of the Peace Conference to accept Article IV. of the British draft of measures to settle the future status of international labor, marks the passing over safely of an obstacle which the labor leaders expected would provide a bitter contest, for the reason that it is the most radical of the projects organized labor is seeking to graft upon the Constitution of the Society of Nations.

This article provides that at the proposed International Labor Conference the representatives of the Governments, the employers and working people shall be entitled to speak and vote independently without regard to the views expressed by the other representatives of their nation and to have power to draw up conventions binding on the nations represented.

The rapid progress made upon the balance of the British draft, into which will be incorporated certain features of the French labor plan, appears to warrant the belief that the essential aims of the delegates of both nations will be accepted in their entirety by the commission, although final action by the Peace Conference is predicted.

The British draft covers a wide field, including the following provisions:

Uniformity of the rights of workmen employed abroad, their protection against loss when in a foreign country through the lapse of social insurance against sickness, old age, accidents, unemployment and similar causes.

The prevention of unemployment through the adoption by the different Governments of a policy of distribution of orders for public works so as to keep the demand for labor at an approximately uniform level.

The relief of the unemployed through a system of registration and co-operation between employers in different lines of industry to meet fluctuating labor demands.

Opportunities to unemployed young workers for the continuance of their education at established centers.

A system of inspection of factories and workshops to insure the execution of labor laws.

The protection of children, youths and women, with educational opportunities for the children and the regulation of night work for the youths.

The limitation of the working shift for young persons to half that of adults, with no overtime or night work.

The recognition of the rights of workmen to combine and the right to peaceful picketing.

The recognition of the right of workmen to combine politically and the right of trades unions to participate in politics.

Working hours to be fixed by laws in each State, with an international standard as the minimum.

The regulation of home work in small workshops or sweatshops to be attended to by each State, in view of the difficulties of settling this problem by international legislation.

An international code regulating labor conditions in the Mercantile Marine under every flag to be worked out by a special maritime commission of the League of Nations in continuous session, to take up new points.

It seems to be agreed that the wholly different wage and money standards of the east and the west would make the definite fixing of conditions as to these matters impossible.

As to the right of workmen to combine, the British view is that this at least should be insisted upon by the working classes, although it is now denied by Japan.

The British plan also contemplates the creation of a permanent international commission to fix the minimum wages according to the conditions in the various regions and to make a special study of native labor problems.

BURGLAR'S HARD LUCK
FAILS TO MOVE JUDGE

His Plunder Stolen and Home Robbed Later, He Tells Court—Gets Five-Year Term.

When Harry Mitchell, thirty-four years old, of No. 134 Livingston Street, a burglar with a long record, was arraigned before Judge Rosalsky in General Sessions today for sentence he argued with the judge that he was the victim of "unfortunate circumstances."

"I wouldn't be here," replied Mitchell. "It wasn't for the fact that I played a lone hand in this burglary. I packed up \$10,000 worth of dresses in a loft at No. 12 East 11th Street and went and hired a taxi to take them away. The taxi driver and a man with him stole the goods from me, so I didn't get a cent out of it."

"Rather tough luck," remarked Judge Rosalsky.

"Not half as bad as what happened to me since I've been in the Tombs," continued Mitchell. "Somebody broke into my room at No. 134 Livingston Street and cleaned it out. Luck certainly is against me."

"So I think," replied Judge Rosalsky, as he sentenced Mitchell to Sing Sing Prison for five years.

DECLARES MOULDY WHEAT
KILLED MANY BELGIANS

Witness at Milk Inquiry Charges That Spoiled Grain Was Shipped From This Country.

Thousands of Belgians died after eating bread made from mouldy wheat shipped from America to Europe, according to a charge made by Raymond Smith, a Federal investigator, testifying today in the John Doe milk inquiry before Chief City Magistrate McAdoo.

Smith declared that thousands of bushels of what after being held in elevators in Minneapolis, became overheated. This was sent to Liverpool and later found its way to Belgium, Smith testified.

Smith charged the American Food Manufacturers' Association with having "fixed" the feed market so that New York farmers were unable to purchase cheaper feed from the western mills. He declared that the Dairyman's League got a percentage of profit from the American Food Manufacturers' Association on all feed sold to New York farmers.

"The practice of certain farmers to club together and buy western feed was suddenly stopped, Smith charged, after Secretary of Agriculture Houston had written a letter advising all New York State farmers to buy feed from their local dealers."

Edmond H. Porter, head of the farms and market division of the State, will be called to testify to-morrow.

Merks was nearly found lying on the floor twenty feet away from the switchboard.

CHICAGO I. W. W. RAIDED
ON WILSON PLOT STORY

Police Arrest 29 Idlers Found at Headquarters—Pierre Held for Conspiracy.

CHICAGO, Feb. 12.—The police today raided the once busy general headquarters of the I. W. W. and arrested twenty-nine idlers "to see who they were, and why they were not working," an officer said.

The activity of the police came after publication of reports of an alleged conspiracy against the life of President Wilson and W. G. McAdoo, former Secretary of the Treasury, for which Pietro Pierre was arrested in Cleveland yesterday. Pierre, an I. W. W., released last October from Leavenworth Penitentiary, had expected to obtain financial aid in Chicago.

Pierre's plan was frustrated by secret service agents, who shadowed him persistently. To elude them Pierre abandoned a plan to go to Washington and fled West. He will be taken back to Kansas City to face trial on charges of conspiring against the President's life.

SAILOR LAYS CLAIM
TO MILLIONS OF KING
OF MONEY LENDERS

(Continued from First Page.)

a job in the business office of a farm journal.

He stayed for several years, and he was reading a Milwaukee paper last week when he came across an advertisement which stated that Daniel H. Tolman, son of John Tolman, would communicate with a certain attorney in Philadelphia, he would learn something to his advantage.

"Danny" took the paper to Capt. L. H. Stafford at Camp Farragut for advice. Capt. Farragut took him to the Red Cross office and it was arranged that "Danny" should get a furlough and the loan of enough money to see him to New York and then to Philadelphia so he could establish his claim for the \$7,000,000 left by his grandfather, the "King of the Money Lenders."

Tolman had offices in 43 cities, and once spent six months on Blackwell's Island on a sentence for usury. When the "King of the Money Lenders" was at Blackwell's Island his son, Elmer, and the latter's mother used every effort they could muster to have the old man freed.

They offered once to burn \$500,000 of the notes held by Daniel H. Tolman if Gov. Glynn would pardon him, but the money lender when he heard of it turned in his cell and vowed he would not "sacrifice his manhood" by consenting to such a plan.

BIG BANK CLOSED
IN PITTSBURGH AND
CASHIER ARRESTED

Officer Accused of Embezzling \$250,000 of Institution's Funds.

PITTSBURGH, Feb. 12.—With the arrest of J. F. Swartz, cashier, charged with embezzling \$250,000 of its funds, the Park Bank, one of the leading financial institutions of the East End, was closed this morning. It was announced that D. G. Cameron, State bank examiner, had been appointed receiver. The bank's statement on Jan. 1 showed deposits of \$2,335,850.

According to the police, Swartz attempted to commit suicide shortly before officers arrived at his home in a fashionable residence section of the city. The officers were kept waiting several hours until he regained consciousness before the warrant, charging defalcation, was served. He was reported in a serious condition in his home today under police guard.

The bank, which was regarded as one of the strongest in the city, was closed by order of the State Banking Department. A statement issued by E. C. Chaffin, President, said the amount missing comprised between \$70,000 and \$300,000 in cash and \$170,000 in unauthorized notes. He said there would be little loss to depositors.

Several hundred depositors gathered at the bank's doors at 10 o'clock this morning after a notice had been posted announcing that only persons indebted to the bank would be admitted. Police reserves were called but up to noon the steadily increasing crowd had shown no disorder.

BUILDING TRADE WORKERS
HERE RETURN TO DUTIES

Strike Ends Pending Final Settlement Between Unions and Employers' Association.

Building trades workers here, who have been out on strike for two days, returned to work today pending the outcome of negotiations between union leaders and representatives of the Building Trades Employers' Association. Strikers in other cities have not yet returned to work but are expected to do so as soon as labor officials can get in touch with them. It was stated.

Ten thousand workers in the silk industry who have been on strike with the 27,000 silk workers of Paterson for a 47-hour week, returned to work today on the old 50-hour-a-week basis pending a decision of the War Labor Board on their original demands. The other 17,000 strikers expect a decision this afternoon from the War Labor Board allowing them to work temporarily on a "short week" basis of 40 hours until the 47-hour-a-week demands are adjudicated.

\$100,000 ON PRISONER.

It Is in Checks and Police Are Investigating Them.

Checks for a total of \$100,000 were found today on a man who said he was Nola Theodore Arvidson, a civil engineer, living at the Ansonia Hotel, and who was arrested on a charge of larceny. The arrest was caused by Ivan H. Wise, a broker at No. 115 Broadway, who said the prisoner raised \$750 by use of a mortgage he did not own.

Detectives who made the arrest found a check for \$10,000, one for \$50,000 and one for \$10,000, made payable to C. M. Meeker and signed by Louis Brooks. The checks were drawn on a Newark bank. The checks are being investigated.

The prisoner will be arraigned meanwhile in the Tombs Court on the larceny charge.

Nurse Testifying at Separation Suit Also Tells of Broker's Trip to Florida.

Miss May Rivers, a trained nurse, testifying today in the separation suit of Mrs. Justina Underhill against Hawson Underhill, a member of the Stock Exchange and of Underhill & Gilmer, No. 60 Broadway, told Supreme Court Justice Philbin of Underhill's alleged attentions to Miss Marion Dorr, an actress. She declared that Underhill enjoyed a vacation in Florida with her and sent flowers, fruit and jewelry to her.

The witness also testified that Miss Dorr at that time was trying to get about \$50,000 from Underhill, and when he accused her of it, she admitted it. Miss Rivers said she had been in automobile and other parties with Underhill and Miss Dorr, whose identity was not brought out. She further testified about the actress's determination to induce Underhill to purchase the kind of automobile she wanted.

"Mr. Underhill said he was going to buy a Buick," the witness said, "but she said she wanted a Cadillac."

"What was said as to who won?" "Miss Dorr said, 'I won.'"

Miss Rivers asserted that the automobile was kept at the same place Underhill's daughter kept her car, in West 76th Street. Regarding the trip Underhill made to Florida, Miss Rivers was asked: "When the conversation was held about going to the South, did Underhill say it was to meet some one?" "He said Miss Dorr was at Palm Beach and he was going down to meet her," answered the witness.

Mrs. Underhill was on the stand to testify regarding her charges of cruelty and abandonment. Underhill has admitted the charges brought against him and the principal question Justice Philbin must settle in addition to the separation decree will be that of alimony.
